THE SAFE SOLUTION FOR ANY HEAT EXCHANGER CLEANING JOB

DERC Tube Bundle Roller

The DERC Tube Bundle Rollers are heavy duty rollers for any bundle up to 20,000 kg. Designed by our own engineers and manufactured from high quality materials. These rollers rotate pipe bundles during cleaning.

The DERC Tube Bundle Rollers come as a set of 2. Each set has 4 rollers, to ensure a good support of the bundle. On one of the two sets the 4 rollers are driven. The rollers on the other set follow (no drive). The drive engine can be driven either pneumatic or hydraulic.

FEATURES

- + Stainless steel construction
- + Suitable for a large range of bundle sizes, without adjusting the rollers
- + Four rollers
- + Air or hydraulic driven
- + Forklift pockets and lifting eye, for easy transport
- + Stackable

THE TUBE BUNDLE ROLLERS EXIST OF

- + Stainless steel base frame
- + Heavy duty bearings
- + Gearbox
- + Motor
- + Chain tensioner
- + Chain guard
- + Steel zinc plated rollers
- + Forklift pockets
- + Lifting eyes

OPTIONAL

The DERC Tube Bundle Roller can be provided with wheel kits to slide the rollers on rails.
