Data Sheet

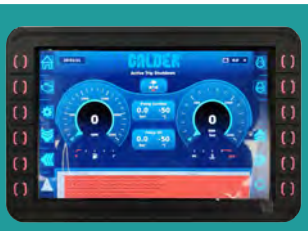

Tier III emissions

MultiJet 340 - 502 HP (375 kW)

For over 15 years, the HOEIT/Calder team have been supplying hydrojetting units to the Middle East region. During that time we have built up a well-trained team supplying our customers across the varied industries who use high pressure water.

- locally held MultiJet inventory
- sales presence
- technical support
- hydro jetting application knowledge
- wide range of hydro jetting accessories
- locally held spare and consumables
- hydro jetting PPE held in country

User friendly controls

Features of these units:

- latest on-board controls
- spark arrestor/silencer
- inlet water filter
- boost pump
- water tank option
- integral fuel tank
- direct drive

This model features our ultra-reliable reciprocating plunger pump which has proved its reliability in the toughest of industries for many years. Our pump's unique design offers a huge advantage to the operator in terms of uptime and productivity, significantly reducing OPEX costs.

Performance Conversion Kits:

10K psi
15K psi
20K psi
40K psi

Performance

Performance Conversion Kits

We offer our optional performance conversion kits for every MultiJet unit. These kits are easily fitted and they maximize the potential of the unit by altering the operating pressure to suit varying applications.

plunger dia (mm)	working pressure psi (bar)	flow rate usgpm (lpm)
19.3	43,511 (3,000)	15.3 (58)
20	40,610 (2,800)	16.1 (61)
25	25,816 (1,780)	27.2 (103)
28	20,595 (1,420)	33.8 (128)
30	17,984 (1,240)	38.5 (146)
33	14,793 (1,020)	48.1 (182)
35	13,198 (910)	52.8 (200)
40	10,152 (700)	70.1 (265)

Support

We are here to support you and your equipment. Our team will help you with your spares and service requirements and we offer training to suit your industry and application.

Accessories

From nozzles to PPE, and tube cleaning devices to surface preparation robots, we supply a huge range of hydro jetting accessories.
